+ Add mission

Import CSV

CSV columns: title, mission_type, optional target_count, points_reward, description. Types: checkin, connection, like_count, post_with_image, comment_count, event_rsvp, event_checkin, profile_update. Or one line: title,mission_type,1,10

ALL MISSIONS (23)

Users do not have an option to refund a product, but the admin side has a filter named “Refund” in the Wallet section.

Liking or commenting on the user's own post should not grant any points. Points should only be granted for engaging with other users' posts.

When a user has used five shakes and tries to send another shake, the system should show the message: "Come back tomorrow to send more shakes."
